LinkedIn: [Edgars Puce LinkedIn](#)

## Personal Statement

I am a passionate developer with 5 years of experience, who loves to write code and solve problems. Coding is fun because you can create something new from nothing and see results very quickly. Sometimes I struggle to solve issues, but the more I try and fail, the more I can learn. And when I succeed, I feel proud of myself.

I have registered a business in Korea and can work as a contractor/freelancer/B2B. Available to work from 8:00 until 18:00 EET time.
